

Compact
Clothes
Line

7 or 14 metres of
clothes line length

Non-skid legs

Compact and
space saving
when folded

This versatile, portable clothes line is one of the strongest and lightest on the market, and the only clothes line that can be folded up and transported with laundry still intact.

Made from industrial-grade aluminium combined with weather resistant plastic parts and non-skid legs for optimum strength, stability and corrosion resistance.

With no assembly required, the clothes line is so easy to fold and unfold with a single button. The functional design allows either one or both sides to be used without impact to line stability.

Each side collapses inwards to form

a narrow long piece when folded, for convenient storage. When folded, lines are protected from dirt to minimise cleaning - the line is always ready to use.

Offering 14 metres of clothes line length (7 metres per side), the clever design allows you to fold in both sides and move the line while fully loaded.

Use inside or outside, or place over the bathtub.

CODE	BL0087
